

Customers by Country and Total Sale

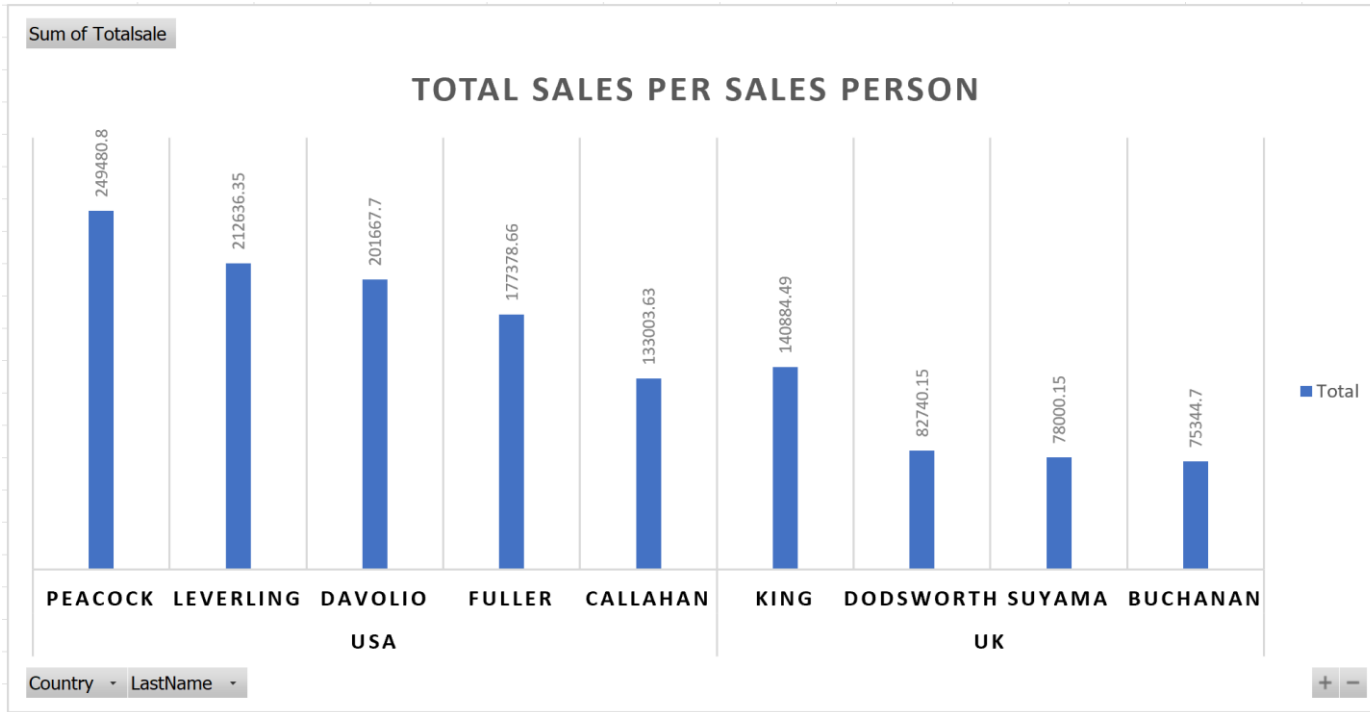

The Chart shows us the number of customers per country. We see that the USA, Germany and Brazil have a huge share of the customer base compared to all other countries. Portugal, Poland and Norway have the least share of customers when compared to all other countries in the list.

Supplier Ranked by Products Supplied and Location

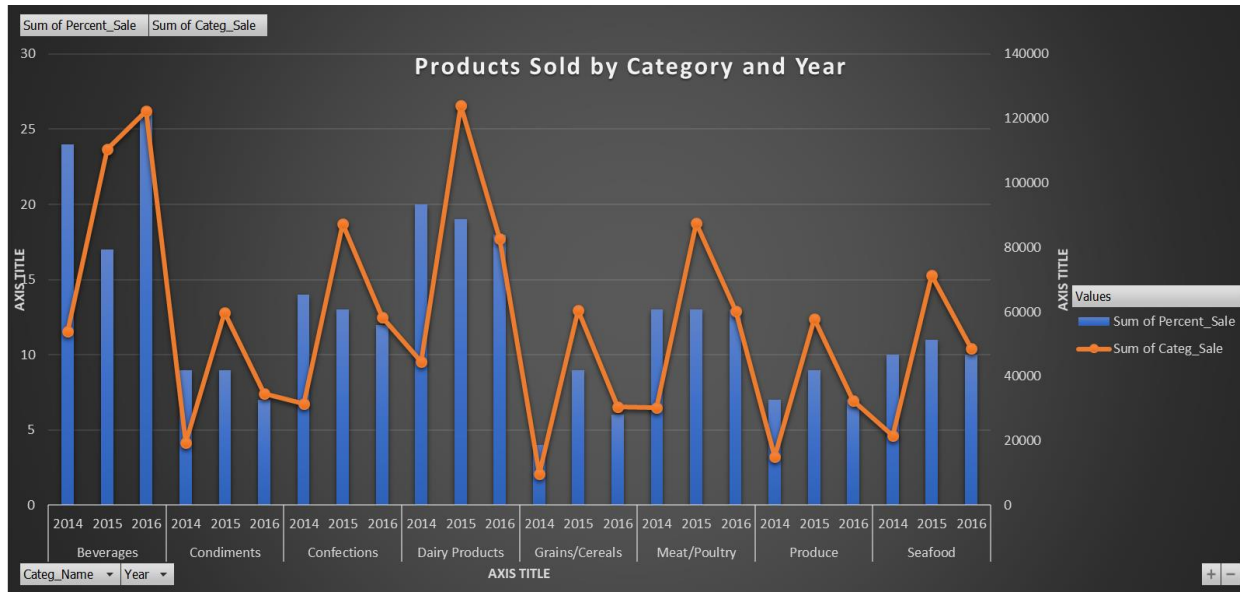

The graph shows us suppliers and the unique category of products that are supplied. We also show the geographic location of the different suppliers in a map view. We see that Pulitzer, Svenski and New Orleans Cajun Delights supplies the highest number of products sold.

Total Sales Per Employee

The chart shows us the total sale by Employees. We can see from the chart that the highest sales are by employees in the US with Peacock showing the best performance overall while King shows the best performance in the UK.

Products Sold by Category Year Over Year.

The Chart shows us the total sale completed by category by year. We can see from the charts that Beverages contributed the highest by sale as compared to all other categories while Dairy products rank in second in sales. Meat /Poultry shows a fairly constant sale year over year.
